

The TEC OWL Elongated, serially numbered for TEC Members, with their membership number stamped on the back, is finished. Limited issue of 250 on cents, and anyone who has sent in their advance order on a serially numbered dime, will get one. Dimes are being rolled for only those that have ordered them.

As it would have taken a board action to have the elongated issued and paid for by TEC, your president, Dottie Dow, has handled the elongated herself. I was afraid we might lose money on it, and right now our new little club couldn't afford to lose money. We want to keep money in the treasury to keep giving you a good newsletter, and if we find that enough people order the TEC OWL Elongated and that TEC can afford to support putting out elongateds for club members only, we will do so, as I do think this would give an added attraction to being a member of our club. Having elongateds for members only, even if it's only 2 a year.

I'd also like to see a new "ELONGATED MEMBERSHIP COIN CARD" issued every year if possible. I'd like to see the next one for TEC to only have the MEMBER'S # stamped on the back, so as not to detract from the face of the coin, (In case anyone does not realize it, it's a lot of work to hand engrave numbers and names on the elongateds. I was happy to do it one year, but it would be a rough task to do every year, as our membership is increasing so much. Isn't it wonderful? We already have 162 members. We have allowed for 250 elongateds on cents because we are hoping it will get us some new Members. If we do not get 250 members by the end of the year, all extra numbers of the TEC OWL elongated, will be destroyed. Any elongateds that are not bought by existing members, these elongateds will be held for a reasonable length of time, and then auctioned off to the membership of TEC, proceeds to go to TEC.

LLOYD E. WAGAMAN has tried his hand on hand engraving, he tried it on an elongated for the "Order of the Eastern Star", he did a beautiful job. He also very graciously offered to hand engrave an official elongated for TEC for our meeting at the ANA in MIAMI, FLA. in August. He said he would do it for just his cost, proceeds to go to TEC. Elongateds would again be serially numbered.

We only want one official elongated for TEC for this meeting, so if anyone else had plans on issuing an elongated for TEC, please let me know immediately, other wise we will tell LLOYD, full speed ahead, as this type of thing takes quite a while to make up. Remember, it's only 4 months till our 1st Annual Meeting. Lloyd we thank you for so very generous an offer, I for one, can realize how much time goes into such a project.

ARIZONA ELONGATEDS, (Which is just another name for DOTTIE DOW, because I wanted it to sound official, and the name tells what I have to sell, "Elongateds", and where they were made "Arizona"), had bills last year of over \$1200. more than it had income. That was why I was afraid of "TEC" handling their second elongated.

RALPH JOBE, our Vice President, donated our first elongated, our "ELONGATED MEMBERSHIP COIN CARD". He never knew when he made the offer, that we'd get so big, and believe me, he's as pleased with our growth as much as I and all of the officers are. ALICE MOON, TEC's Secretary-Treasurer really takes the clubs interests to heart, as she is always so pleased to send me more members names. I guess TEC's growth is surprising every one, but if you get a good club started, and have something to offer the members, a club is bound to grow. The true test will be in Jan. 1968, when our club dues are due, and we see how many rejoin. There are always a certain number of drop outs, we sure hope those for TEC are very few.

I guess I better bring up some rumors that have been started, (I will not embarrass the person by mentioning his name, as he has embarrassed me). The rumor that has been started, is that I am Incorporated, and pulling in money by the hands full. As I mentioned previously, my expenses last year, FAR exceeded my income on Arizona Elongateds. Arizona Elongateds is soley owned and operated by DOTTIE DOW period. I am the only one who can sign checks on the Company. Not even my own

husband can sign a check, this worries him, in case something happened to me, but he has his own business, (Sculpting of Medals, and doing real well at it), and I have mine with the elongateds and my book on elongateds.

I am out to help the lowly collector - "NOT THE WHOLESALER". Do you know that to date only 100 sets of the U. S. State Flag Sets have been sold? I promised my customers when I issued the 51 piece series that I would never wholesale it, and I have kept my promise, and ask any Elongated Manufacturer, you can not pay for a die by selling 100 pieces at 55¢ each, or \$26.00 for the set of 51 different. Yes, I'm hoping more will be sold, I'd like to get out of the red, but when a Manufacturer tells you he will not wholesale an item, you don't have to ask for a limited issue, the U.S. State Flag Sets prove this. Did you also know that those of you that purchased the "AES" elongated, that only 150 of these were issued, and over 50 of these were given away as I'm president of AES? I didn't brag about the low mintage when I sold them at \$1.00 each, Maybe I should have, as I did get a few complaints as to the price.

Did you also know that there have never been more than 300 issued of any Ariz. Coin Show elongated, and in a lot of cases only 150 to 250? Elongateds do not sell well at Phoenix shows, I give away more than I sell, but having them at the show, still makes them legal. Did you know that on our horizontal die of Ariz. State Numis. Ass'n. 1966, only 250 were issued, and then the die was re-engraved to include the word "Banquet"? These were offered at \$1.00 each, yet I'll bet I have well over 100 left.

I am only bringing up these things to you as I believe you have a right to know a little bit about your president when rumors arise and if anymore arise don't be afraid to tell me. I'll let you know if they are true. Rumors about me might rub off on our club, and I believe this is why the rumors were started. I want nothing to happen to our club, except to see it keep growing the way it is, and I know you all feel the same way about it and will do all you can to help. Rumors do nothing but hurt people, and a funny thing is, a lot of times they backfire!!!

I keep getting letters asking when my next book on elongated coins will be out. As I don't have time to answer this in full to all letters, (I get from 5 to 20 letters a day), I'll answer it here. As much as I love being editor of TEC, it does take up a lot of my time. If we hadn't started TEC, I'd have probably had the next elongated book ready for the ANA in August. As it is now, it will have to come out in 1968. I am trying to find a new editor for TEC. This doesn't mean I wouldn't keep writing for TEC NEWS, it just means I'd like to find someone to handle it. Pull the loose strings together, type it, mail it out etc. I'd still help on the writing end, IF I can find someone to read my scratchy handwriting. I love our TEC NEWS, and I love putting it out. I've sat in bed for the last 2 hours writing this first part of the Newsletter. The part I dread, is from the actual typing on.

Between newsletters, I am constantly gathering material for the next Newsletter. As the last Newsletter was being put into envelopes, I already had half a page of copy ready for this one. It's not something that's done in a day. I know I had over 24 hours in the last Newsletter, an exact estimate is not possible, as I spend an hour here, and an hour there, but those hours count up, and this is time taken away from getting the next book on elongated coins ready. Remember I have a steady job as a Cost Analyst (which pays me a salary most any man would be proud of earning), and this includes a lot of Saturday work to, so that just leaves me Sundays, and evenings, and there is also Ariz. Elongateds, I have thought of giving this up to save time, but I'd hate to do this. I don't make any money on Arizona Elongateds, but I still get the natural thrill of each and every creation. I am indeed fortunate to have such a gifted artist for a husband. But he is getting so busy, he does not have much time for me any more. I am hoping that NORMAN MIXON, Ben Mixon's brother, may help out a little with art work, as you will see when you get your TEC

OWL elongated, he also is quite talented. He shows great promise. He also did his own elongated store card, (a real unique one), and his brothers too, (see NEW ISSUES in this issue of TEC). Ben and Norman are both members of TEC.

You sure have a gabby editor don't you? But I have a right to be gabby, remember I'm female.

PUBLICITY: FAY SMITH, (A new member of TEC), Got us a nice big write up in the January issue of "THE BUTCHER WORKMAN", I love the way he started it, "A NEW INTERNATIONAL CLUB was formed during the ANA Convention in Chicago", he made me realize I pulled a boo boo on page 1 of the Jan.-Feb. issue of TEC, I called us a "National Organization", It should be "International", we are open to ALL. We have two Canadian members, and we have two of our members overseas; B.E. Powell, and R.P. Goodwin, maybe they'll spread the word of our club. FAY SMITH also got us just as nice a write up in the Feb. issue of "STEEL LABOR". We doubly thankyou, and are happy to have you as a member. LEE MARTIN, (Also a new member of TEC), and also Director of Advertising for COINage, got us a nice long write up in THE SANTA ANA REGISTER, and has promised to soon try and get us something in COINage Magazine (a wonderful magazine for Coin Collectors), Lee we love the way you've been getting us so many new members, keep up the good work. JOHN CLYMER, president of "The Texas Area Vecturist Ass'n, (also a charter member of TEC), gave TEC a nice write up in their Newsletter. We thankyou John for passing on the word. NUMISMATIC NEWS, COIN WORLD, AND WESTERN COIN COLLECTOR were all sent news releases, maybe they will remember us the next time.

X NEW ISSUES: MYRON G. XENOS, 22655 Laramie Drive, Rocky River, Ohio 44116, has issued a WARRENSVILLE COIN SHOW elongated. On cents @75¢ ea. Set of Nickle, dime and cent, 3 pieces for \$2.75 set. Total Mintage of the Warrensville Coin Show elongated; 2500 Cents, 300 Nickles, 250 dimes, 100 misc. Pieces. Total of 3150 pieces rolled before die was destroyed. Die was destroyed in front of about 30 people, I was sent a sample of the coin after die was destroyed.

R.W. LUCHTMAN, 1015 W. WETMORE RD., TUCSON, ARIZONA, has 2 new Lord's Prayers for sale: LPdbOTE-13 & LPdbHDPG-8 @ 50¢ each. These have not been offered before.

RALPH JONES, 3048 N. 3rd St., Phila., Penna., 19133, has 6 new presidents (J. Adams, Jefferson, Madison, Hoover, Coolidge, Harding) and also 2 different Mobile, Mardi Gras elongateds @50¢ each.

C. J. MECCARELLO, ~~228 Vassar Rd. Poughkeepsie, N. Y. 12603~~, has 2 nice store cards to offer. One in large print for his Company @75¢ each, and one in small print for his Co. on one side, and on the other side is FLASS-1 @ \$1.00. He also has a few more counter stamped elongateds to offer, write him for details if interested.

ARTHUR J. GRABB, 13 St. Paul's Ave., Jersey City, N. J. 07306, is not offering elongateds, but he is offering a real nice 3 line name and address, Rubber Stamp, Cushion Mounted and Indexed, only \$1.00 Postpaid. Additional lines 30¢ each. Please state if you wish block or script letters. (Alice Moon, Ralph Jobe, and myself, all had a 4 line stamp made up by Arthur Grabb, in Script letters, with the first line being "The Elongated Collectors", it makes up into a very nice stamp, and I hope a lot of the members will order one to help spread the name of our Club.

A.A. ROSATO, 44 BANK ST., NEW MILFORD, CONN., SAID that he needs 25¢ per 100 added for postage on the elongated holders he is selling. Remember \$1.50/C for regular size, and \$2.50 per hundred for large size, Minimum order 200 holders, any combination.

X JACK MECCARIELLO, BOX 1281, PINE PLAINS, N.Y. 12567, I have been waiting for a letter from Jack, to make sure if his Halloween elongated is for sale, it has a pumpkin on it, I believe it is 75¢. He may be all sold out, but I thought I'd mention it, as it is a cute one.

X DOTTIE DOW, BOX 5238, PHOENIX, ARIZONA 85010, has the TEC OWL elongated ready, limit of one cent to a member @50¢ each, plus a dime, if previously ordered @\$1.00 ea. Ben Mixon and Norman Mixon's store card elongateds @50¢ each. Easter Bunny and Mother's Day elongateds, same ones as made last year, only "DD" has been added. The Manufacturers Initials were accidentally omitted when die was originally made, (only 240 Mother's Day made without DD, and 310 Easter Bunny). Price with DD added 50¢ each. Ariz. State Num. Ass'n. (with Cactus), and Tucson Coin Show, both re-engraved 1967, at .50each.

LLOYD E. WAGAMAN, ROUTE 4, MARTINSVILLE, INDIANA, 46151, has a hand engraved elongated for "Order of the Eastern Star" @50¢ each. He's engraved it himself and is to be commended for a job well done. He also has a Nebraska Centennial and Canadian Confederation Centennial Elongated, done by his regular engraver @ 50¢ each.

To those who had doubts about Lloyd Wagaman's dies on the 2 Indiana Sesquicentennial dies being destroyed, and also the Prayer for Peace in Vietnam, I can verify this, as I received copies made from the destroyed dies myself. Lloyd only made 4 copies to prove dies were destroyed, and then completely destroyed the dies so that no other copies of any kind could ever be made of these 3 again.

For those of you that had wanted copies of the destroyed die, there are none of these left, none can ever be rolled again. Because of so many requests for copies of his last destroyed dies, Lloyd, after rolling 1000 pieces of the O.E.S., destroyed the die with criss- crosses, and then rolled 15 pieces, and then destroyed the die completely. These 15 pieces were rolled on cents. Lloyd will accept bids on 10 of the "Marked-Up" O.E.S. elongateds, the proceeds of these 10 elongateds will go into the "TEC treasury". Thankyou Lloyd again, for keeping our clubs interest at heart.

Send your bids directly to LLOYD, closing date for bids is MAY 15th.

ELONGATED EXHIBITORS: WALTER HOFFMAN won first place in displaying his Elongated State Flag Set in the Coin Club which he belongs to in Pa. Dottie Dow displayed her set of 12 Canadian Enameled Elongateds, but had to enter Non-Competitive at the ASNA Convention in Phx., as she was Exhibit Chairman. (Did I miss anyone? If so, write in and tell me and I'll get it in next month).

SUGGESTIONS FOR NEW ISSUES: F.V. BRANDENBURG, Guam and Philippines Flags. ALEX P. KAISER, Elongated of Dottie Dow. HENRY BLAHA, "An Irish Blessing". LEWIS M. WRIGHT, 150th for the Erie Canal. ELIZABETH WEINZIRL, Square Dancers. MARIE TRINNY, Elongated in memory of the Astronauts; I'm a Catholic; I'm a Protestant; I'm Jewish; Countries of the World with map outline on which name of country is printed.

While at the 12th Annual Convention of the Numismatic Association of Southern Calif. on Feb 9th thru 12th, in L.A.. I talked with Virginia Culver and Ray Byrne, who are now ANA board members and are candidates for a second term on the board.

I also talked to Ralph Cleaver and Alva Christenson, (They both just joined TEC), who are also seeking seats on the ANA Board this year. Don Sherer, who is a candidate for 2nd Vice-President of the ANA this year, drove over to L.A. and back with us. Other members of TEC that I saw there were: Maurice Gould, Sam Vanderhoef, L. Galati, and Kenny Lee. H. C. Schmal, our ass't Editor says remember he was there too. New Members received there were: Hy Brown, Alva Christensen, S.W. Freeman (Advertising Manager of the Numismatist), Pearl Johnson, and Lee Martin, (Director of Advertising of COINage Magazine).

There were no displays of Elongateds at the Convention. Silvia Novak had a Columbian Expos. display, in which she had a few Columbian Expos. Elongateds.

## REPORT OF RESTRIKE COMMITTEE

Of 14 questionnaires sent out, 12 have been returned with quite a variety of answers. Of those twelve, eleven are actual rollers.

The attitude of many of the answers as to RESTRIKES are rather varied. Some hedge and mention other things and details but seem to dislike the word restrike.

The question of destruction of dies really brought forth a very good variety of answers. Three favor destruction, four favor marking the die somehow to indicate a restrike, and four are noncommittal on the subject.

Now that brings up a very serious question. "WHAT is a restrike?". There are many pieces that are being rolled all along and will go on from now till eternity. The Lord's Prayers, The Ten Commandments, and the Preamble to the Constitution are ageless and could be rolled indefinitely, any undated piece could be rolled without being called a restrike at any time as long as the price stays down with the newly rolled pieces. BUT, when a piece is Dated, then comes the problem of how long shall that particular piece be rolled. 1 year, 2 years, 5? How Many?

As you may have already read in the Jan-Feb issue of TEC NEWS, one of the manufacturers, namely, Lloyd E. Wagaman, of Martinsville, Indiana has taken the bull by the horns and has destroyed three of his dies. Two of them are of the 1966 Indiana Sesquicentennial and one the Prayer for Peace in Viet Nam. I will agree that the Sesqui pieces would be scheduled for destruction, but the Prayer for Peace in Viet Nam could have been continued for some time yet as that conflict is still going on and it is not time to stop Praying for Peace there. I think that he was a bit too hasty on that one. I know that he is very sincere in his desire to clean up our hobby of its restrikes and I do hope that his action will be noticed by the other manufacturers and given some very serious and careful thoughts.

Some seem to figure on the old adage of "Supply and Demand". "If you want it, I got it or can make it, so pay my price."

In modern life as far as necessities go that may be the rule, but in a HOBBY that is what will stop many people, especially youngsters, from taking it up. A hobby is supposed to be for fun and relaxation. Lets keep ours that way.

Unfortunately, none of those that answered their questionnaires admit to any of the older dies of the Fairs and Expositions, but yet there are some moth eaten pieces showing up at premium prices. Who is rolling them? Where are the dies?

Some are in favor of marking the die in some way to show it is a restrike, by dating or such. Now, just imagine what the numismatic field would be if the Governments saved all their dies and reissued them to any one who asked for them at face value or a little over. Where would the interest in the hobby lie? Anyone would be able to have a complete collection for not much more than face value, but what of the future? Just a bunch of coins.

Value increases by scarcity. If 2000 pieces are available and 3000 people want some, then there is room for bargaining and trading. If any one can get a copy any time they want one, there is no possibility of any value increase.

In Government species collecting the mintage more or less controls the value of the piece in question. So be it with the elongateds. If the supply is continuous then the price is low and reasonable, but if the rolling is limited, and the demand is great then the price will fluctuate.

My recommendation to the situation is that a committee consisting of no less than five members, two who manufacture and three purely collectors, be formed to discuss and formulate a code of ethics in regards to restrikes. If a manufacturer decides to restrike and the membership agrees to boycott the pieces, then he has a bunch of pieces on his hands.

It is my sincere hope that this survey and Lloyd E. Wagaman's destruction of his dies will start this hobby into straightening itself out and building a clean and wholesome future that any collector can appreciate and want to participate in.

Thank you for listening.

HENRY W. BLAHA,

CHAIRMAN OF RESTRIKE COMMITTEE

MILT HEITMAN of Marengo, Iowa has accepted the job of HISTORIAN for TEC. Milt is a very serious Elongated Collector, and we know he will do a good job for TEC. If anyone sees any write ups in any papers, magazines, etc., on TEC, please cut them out and send them to Milt, You will be doing YOUR CLUB a service.

-----

Two Older Elongateds, that dies must have just been found on again are: N.Yb.i-3, and N.Yn.y-1. Since these are now being currently rolled reduce your price on my price list in "THE ELONGATED COLLECTOR", from \$2.50 each to 50¢ each.

There are still copies of "THE ELONGATED COLLECTOR" left, for those of you that don't yet have a copy. Retail in \$7.50. To all TEC members purchasing a book, we will allow \$1.00 credit on any Elongateds purchased at the same time from Arizona Elongateds. Write Dottie Dow.

-----

Many times have I said thanks for the nice comments I've received on newsletters I've put out in the past, NOW, I'd like the rest of you to just see for yourselves some of the comments received on TEC NEWS:

R.V. BRANDENBURG; I heartily commend Lloyd E. Wagaman on his stand on restrikes and rerolls, and also his stand on limited production. When collectors are assured of receiving a coin or elongated that has a limited issue, they are interested in this for a collection item knowing that they will have something that will eventually increase in value. We are all aware in our hobby, we do not only collect for possession but the financial gain that one may derive from it in the future. I also like the idea of manufacturers initials on elongateds. This similar to MM on coins and helps identify different issues.

ELTON PARSONS: Enjoyed last TEC NEWS letter very much. I found the articles written by the different members very interesting. I would like BEN's more detailed account on die engraving.

WENDELL MORNINGSTAR: I am editor of Bunyan's Chips, a publication for wooden nickel collectors, and I realize the work involved. You are doing a splendid job. (P.S. from editor "I couldn't do a good job if people didn't send in news and articles, so if I'm doing a good job I owe it all to the active members).

A.A. ROSATO: The TEC NEWS was superb. Once in my hands, couldn't let it go till I finished reading every word.

S.L. CRAWFORD: Enjoyed TEC NEWS immensely. Keep up the good work.

HARVEY W. BINDER: I hope all our members of TEC appreciate the work you are doing like I do.

JOE LESSNER: You're doing a very good job on the TEC NEWS.

LEE LISKA: The Newsletter was very nice, congratulations on a very nice job.

HENRY BLAHA: It really is a good newsletter and gives plenty information on everything an elongated collector is concerned with. Those articles are really good too. I liked that one by Ben MIXON telling of the start of an elongated piece.

DAVID RADTKE: Enjoyed the latest issue of TEC NEWS very much and along with the Membership elongated I feel I've gotten \$2.00 worth already.

LLOYD E. WAGAMAN: You did a terrific job with the JAN-FEB. issue of the Newsletter. I'm sure everyone receiving a copy enjoyed it very much. I know I did.

JACK W. GLADFELTER: Keep up the good work.

SHIRLEY & HARRY STROUGH: We enjoy your News Bulletins very much.

ABE GEFTER: The TEC NEWS is packed with News about our hobby and very interesting articles.

ELIZABETH WEINZIRL: You really must have worked very hard to gather all the news items, pull them together, condense them and then produce the TEC NEWS of JAN-FEB. Where do you find all the time to do all the things that you do? Don't you ever run down? I hope all who receive the TEC NEWS fully appreciate your efforts. The articles by Ralph Jobe and Lloyd Wagaman were most interesting. (P.S. from editor "Elizabeth, I can sure tell you've put out a few newsletters yourself, and realize what goes into it. Thanks much.)

## OPEN LETTER:

Dear Mr. Wagaman,

I think we are now on the right track organizing our own group in TEC. I read your article today, and I am pleased with your idea of a limited issue. However, I might suggest you roll more than 150, I would say 250, as I think you should sell at least 200. This would leave 50 for a small surplus and will prevent the "SHARPIE", from speculating, once the limit is gone. If you roll 150 and ALL ARE SOLD, and let's say I bought 3 of the original 150, I would have 2 to speculate on to the fella who joins us later and wants one. Now it's a known fact the die is destroyed and none available, so now I put a price of \$25.00 for mine because where would he get one? A collector who has one in his own collection is not going to sell his one piece, so if he has 2 or 3 extras, knowing you only rolled 150, he can speculate on a few extras, and this will discourage any future collector. I suggest you roll at least 30 to 50 pcs. more than you think you'll sell initially, and another thing too, once collectors know you are putting out a limited issue, they will buy 2 or 3 and you'll be out of them in no time, just like "Proof Sets" happened in 1964. When people know of a limited deal, that's it. You've got a speculator in there! I can't blame them as it is a natural thing to do and if they don't, some one will. At 150 pcs., you will have to put a tight control of a limit of one piece to a collector or 2 pieces. The extra one could be used as a trade piece later when the issue has been exhausted. I recommend your thoughts over the matter and also you could sell them at \$1.25 to \$1.50 each instead of \$2.00. Once you establish what the original demand is, and once you have that, roll 25 or 30 pieces for reserve, destroy the die, and you will curb the speculator. We want to build more interest in Elongateds and you can't do it with higher prices or a tight limited amounts. I agree that an amount to be rolled should be established and if each of you manufacturers will do this, and destroy the die, an evaluation can be placed on the coin, thus STANDARDIZING at the same time.

You're on the right track and keep up on your idea. I think it can start some kind of control.

This is an OPEN LETTER to anyone who wishes to use it, if you wish to pass it on to DD for publication as an idea, please feel free to do so.

A.A. ROSATO

-----  
MOTHERS' DAY

By DOTTIE DOW

On May 9, 1914, following the adoption of a resolution by Congress, President Wilson issued a proclamation declaring that the second Sunday in May should be observed as Mothers' Day, "As a public expression of our love and reverence for the Mothers of our country".

The idea originated with Miss Anna Jarvis of Philadelphia in 1907, and Phila. was the first city to observe the day, May 10, 1908. Since then recognition of the day had extended rapidly Nationally, as well as all over the U.S.

The carnation is the symbol of the day. The wearing of a white carnation first began in memory of our Martyred President, William McKinley, who always wore this favorite flower in honor of his mother.

While the setting apart of Mothers' Day in this country is recent, the idea may be traced back to ancient times. "Rhea" (also called Cybele), the "Great Mother of the Gods" was worshipped in Asia Minor. From Asia these rites were taken to Greece and Rome, where they became a part of the "Feast of Hilaria" held on the "Ides of March".

With the coming of the Christian Era this was replaced by ceremonies of the Church. The Virgin Mary became the "Mother" of the Roman Catholic Faith, and also the "Mother Church" idea arose.

The only known elongated made to commemorate Mothers' Day is the one of Whistlers Mother, put out by Arizona Elongateds.
